About Lazzara LPC 85

Our patented Lazzara Catamarans design platform creates more square footage in 85 feet than what is typically found on a 130-foot monohull yacht. The lower deck is designed to take advantage of the full beam of the yacht, ensuring that your master suite and guest staterooms are among the most spacious of any in its class.

The Lazzara LPC 85 features a luxurious, full-beam owner's stateroom with a double vanity en-suite bath. Positioned for easy access, as well as maximum privacy, the owner's space opens wide with fold-out balconies to port and to starboard for a lovely breakfast, afternoon cocktail, or evening nightcap. The expansive feel of this space delivers fresh sea breezes with quick access to the water. Exceptional interior appointments ensure that owners will experience five-star comfort in their private escape of this beautiful yacht. Enjoy unprecedented space in your private suites thanks to the design of the lower deck which allows for the entire beam to be utilized. Perfect for a couple's getaway, there is also plenty of space for friends and family, extending the invitation to ten guests. Four additional staterooms with en-suite baths find thoughtful accommodations echoing the luxury of the master suite.

A shallow draft offers an opportunity to explore places more cumbersome yachts could never approach. All in all, the LPC 85 is the perfect yacht for these contemporary times, getting everything right without wasting an inch.

MOTOR YACHT

Lazzara Yachts is a legendary American company with decades of yacht building experience, delivering innovation and uniqueness in every design. As an experienced shipyard we have complete control over each and every build and we emphasize quality over quantity. This translates into building a “limited” number of yachts, so you’ll not find a Lazzara in every harbor.
